

# STUDENT GOVERNMENT: Are the Resignations Justified?

During the past semester there have been ten resignations in the student government at San Francisco State College. Why? Many outside factors contributed to their actions. This situation of student body elective and appointive officers resigning is a continual problem. Each new semester sees new letters to the ASSFSC president asking acceptance of resignations.

The problems connected with the unusual political setup at S.F. State are those of a more or less permanent nature; problems that exist today and have existed in the past.

In a projected series of articles on this subject the Golden Gater will explore these resignations, the problems connected with them, and the possible solutions to these problems in the hope of finding answers to the questions involved. It is our hope that we are able to do so.

For the past few weeks there have been two va-

cancies on the big officers board hung in the ASSFSC Activities office. The board, which contains the names of the elected officials, is rarely filled because of resignations. But behind those names are those people who are not listed, who have resigned from appointive offices. Therefore the question revolves not only around the elective offices but lies deeper than that, within the workings surrounding the offices of appointed students.

The answer to the problem may lie in what some have termed "the peculiar nature of our student body." Many have commented on the fact that a large number of the students at S.F. State work, either full or part time. This would necessarily limit the amount of time the individual student could spend to better his student government.

The working student may provide the answer, since many of the student body officers can be placed in this category. The combined pressure of work, academic matters, and student body office may have

been a major contributing factor to the rash of resignations.

For the purpose of determining the reasons behind the situation the student body may be divided into two groups, those who work and those who have a more or less unlimited amount of time.

Obviously the students who work cannot be expected to carry the load on a basis which is presently extant in the ASSFSC. Time and again the observer of the student body government will find the same people carrying a multiplicity of jobs within the structure. The answer is more people.

If the students who are now engaged in ASSFSC work could be augmented by those who are not now working at this task, the load would be lightened and better government would result.

Next week the Gater will consider the reasons for lack of interest in student government and methods by which students could become more interested in participation in their student body affairs.

## Phillips Halts Club Voting In Election Controversy

### Appeal to Judicial Council May Be Filed By Warring IRC Factions

Tension continued to mount regarding the "IRC incident," wherein Bert Phillips, president of the Associated Students, intervened in an International Relations Club election because "discord" was observed between competing factions within the club. Informed sources indicated today that the whole question might be brought up before the Judicial Council on appeal.

#### BALLOTS CONFISCATED

Simmering since January 13, the day Phillips confiscated the ballots cast in the IRC election, reactions to the presidential act came to the surface when IRC President Sami Judah labeled the act "not illegal, but rather unwise."

Events leading up to the present tense situation include:

1. At the IRC nominations meeting Sami Judah was nominated to succeed himself as president. Mohammed Aswaq was nominated by a competing group, which had recently become active in club affairs.

2. In the subsequent election a third candidate drew enough votes so that Aswaq could not claim a majority victory, although he had two more votes than Judah. This necessitated a run-off election.

#### MEMBERSHIP UNCERTAIN

3. According to Judah, the Aswaq faction made several complaints during the election, which was being conducted by an agreed upon "neutral" election committee. Primary objection was to the voting and membership list. They were, in the opinion of the Aswaq group, inaccurate.

4. This was the situation that Phillips observed. He proceeded to declare the ballots confiscated and the election suspended.

#### ACTION APPROVED

5. The ASSFS, presidential action was approved in a special January 19 Board of Directors meeting. Judah attempted to have the directors OK his move to count the ballots, in order to clear his administration of an accusation that they had tampered with the voting list and the ballot box. Only Judah and representative Carol Bondshu voted for the motion, which was defeated.

## Scholarship Fund Aided

Featuring the finest academic talent at San Francisco State, a Scholarship Event series will embark here February 18. Product of a committee formed to explore methods of raising money for scholarships, the series embodies a departure from the usual in the field of scholarship funds.

Open to the public as well as to the students, the Events are planned as a long-term investment with future series to include dance recitals, art exhibits, and other manifestations of college talent.

The Scholarship Events committee, composed of representatives from each division of the college, Administration members and Student Body officials, named to open its first series Dr. Alfred G. Fisk who will speak and display slides in connection with his topic, "India and the East-West Struggle."

Dr. Fisk, along with the other faculty members participating in the program, will donate his time free of charge, in order that all money accrued from the Events may revert to the scholarship fund. Each of the participant college divisions will receive equal amounts of the money earned and will distribute it to the students through its respective office.

Committee Chairman Dr. Louis Wasserman called the committee and the series which it will present "unusual" in that it represents both students and faculty in a concerted effort to raise money for the benefit of the individual students.

Planned to be held on alternate Thursdays throughout this and following semesters, the Events will be open to the public at a nominal charge of fifty cents while students will receive a rate of twenty-five cents.

#### SCHOLARSHIP EVENTS PROGRAM

Feb. 18:—"India and the East-West Struggle." Dr. Alfred G. Fisk.  
March 4:—"Your 1953 Federal & State Income Taxes: Questions and Answers." Dr. George Stenberg and Leo McClatchy.  
March 18:—"Japan and the Future of Asia." Dr. T. E. Treutlein.  
April 1:—"You and Your Children: The Psychology of Learning and Discipline." Prof. George V. Sheviakov.

## Bisbee, Daube Quit Posts As Treasurer, Secretary

### Bert Phillips to Appoint Students to Fill Vacancies

Effective immediately, Diane Daube, secretary of the Associated Students, and Andy Bisbee, treasurer of the Associated Students, resigned their offices, which are to be filled by presidential appointment with the approval of the Board of Directors.

Miss Daube, in her letter of resignation, stressed the fact that her January 29 graduation from S.F. State precluded her continuing as a full-time student; this would make her ineligible to hold office. Future plans for the former secretary include primary-grade teaching and a possible graduate course at State.

### Brotherhood Week Sponsored Here

Brotherhood Week is being observed this year from February 21 to February 28. Brotherhood Week is sponsored by the National Conference of Christians and Jews with the purpose of giving people an opportunity to rededicate themselves as individuals to the basic ideals of respect for people and human rights which are essential to our way of life.

Brotherhood Week is also sponsored with the purpose of dramatizing the practical things which people can do to promote an understanding and realization of these ideals and to enlist the support of a larger number of people in year round activities to build brotherhood.

San Francisco State has two faculty members prominent in the year round observance of the purposes of Brotherhood Week. One is Dr. Lavone Hanna, in the Education Department, who is Vice Chairman of the NCCJ's Commission on Educational Organization. The other is Dr. Hilda Taba, who is well known by her many publications in Intergroup Relations.

Channing Club, a Unitarian on campus club, is helping to sponsor a special Brotherhood Week celebration on February 27th. The celebration will consist of a movie "Make Way For Youth," folk, square and social dancing and folk singing.

Dr. Bob Smith, of the Education Department will speak at the celebration which will be held at 8:00 in the Clay Street Y.W.C.A. The celebration is being sponsored by organizations on campus and by other young adult groups in the San Francisco area.

—By SHEILA CROFUT

#### SOCIAL ACTIVITIES

Thursday, February 11, 8:30-3:30—Graduates, Seniors and Juniors Register. 7-9 p.m., CCUN Meeting, Activities Room.  
Friday, February 12, 8:30-3:30 p.m.—Sophomores and Freshmen Register. Basketball, SF State vs. Cal Aggies.  
Monday, February 15—Instruction begins.

Friday, February 19—Last day of registration for regular students. Basketball, SF State vs. Hamilton Air Force. 9-12 p.m. Sigma Delta Gamma dance, "Paris After Dark."

Saturday, February 20—Last day for registration for limited students. Basketball, SF State vs. Moffett Naval Air Field.

### AFROTC Plays Host To Bay Colleges

A regional problem solving session was the result of a successful experiment conducted by the San Francisco State AFROTC in the first Bay Area Conference held at State's campus on January 12. The San Francisco State Wing Staff acted as hosts to San Jose State College, Stanford and the University of California.

The purpose of the meeting was to discuss and propose solutions to organizational problems common to all AFROTC units and to foster better public relations between neighbor colleges. Discussion of the cadet Judge Advocate General's section and the NCO and cadet Officers schools were the highlights in the day's program.

Results of the conference included a proposed joint dance for all upper division AFROTC students at the four colleges and the creation of an annual Bay Area Wing Staff Conference.

## 'SHORT' VISIT LEADS TO NEW CAREER FOR EDUCATOR

By HELEN HERRICK

Stepping into the nursery school at the old campus might give the novice a sense of bedlam. Two-year-olds stand and stare; three-year-olds run madly about on foot and wheeled toys; others climb the jungle gym or ladders or, on occasion, fences. Too many sit in small groups giggling and talking contentedly.

This has been heaven to Helen Hatchett for seven and one-half years. She is a heavy-set woman, but can pass from one side of the room or play yard with quiet, amazing rapidity, leaving most occupants unaware of her passing.

"Hatch" is in charge of the three-year-old group at the State College

Nursery School, and has held that position since 1949. Prior to that time she worked under Mrs. Raeschnitzer with the two-year-olds.

"It was from her I learned all I know about human relations and handling student teachers," declared Mrs. Hatchett. "I cried all one night, though, when I learned I had to leave the 'Twos.' But I got over it, and now when I look at them I wonder if I could ever work with them again. It is amazing what a difference a year makes in the development of a child."

Mrs. Hatchett was born in Mobile, Alabama, and intended to become a high school teacher. She attended Fisk University in Nashville, Ten-

nessee with this in mind.

The war arrived and her husband came to California with the Navy. Helen decided that she too would come to California, but only for a visit, a very short visit while her husband was stationed here. That was in 1944.

"I never went back but once, and that was just for a visit," she laughed.

Having come here, Helen decided to take the State College course in nursery teacher training "just to help during the emergency," she told herself. She became a regular teacher upon graduation in 1945, working with the two-year-old group. Here she came to be looked upon as a person of great value in this work.

In the fall of 1949 a director was needed for the three-year-old room, and Helen Hatchett was chosen to fill that need. Her success there was remarkable, both as a director and as a person.

Her attitude toward and guidance of the novice teacher is of such quality as to promote easy orientation. Her unassuming personality is nevertheless magnetic. Her understanding and ability to aid and assist the parent is outstanding.

In the spring of 1951 Helen Hatchett was notified that the East-Bay alumni of Vassar College was interested in giving her a scholarship to that college for a summer session. Hopeful but not confident, she ar-

ranged for the interviews and was chosen. She spent eight weeks studying that summer at Poughkeepsie, New York.

"In the workshops were representatives of every one of the forty-eight states," she said, "I was able to say quite a lot because most of the states regard nursery school in a purely custodial light, and not as an educational function at all. California is unique in that it pays part of the fee for the cooperative nursery school under the Adult Education Program." California is far ahead in educational policies, she believes.

"I had to stop wearing an apron in the school because people kept asking if I were the cook," she said, smiling.

# Liggett & Myers Tobacco Co. says . . .

FOR more than thirty years we have used research day in and day out learning about tobaccos and cigarettes in the public's interest.

Continuously we and our consultants have analyzed, experimented with and smoked all kinds of tobaccos... especially Southern Bright, Burley, Maryland and Turkish cigarette tobaccos.

Our own cigarettes and competitive brands have been submitted to the most exacting scientific scrutiny including thousands of analyses of millions of pounds of tobaccos.

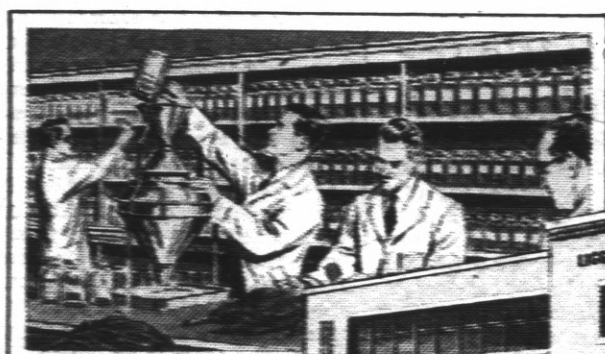

From all these thousands of analyses, and other findings reported in the leading technical journals, our Research Department has found no reason to believe that the isolation and elimination of any element native to cigarette tobaccos today would improve smoking.

For four years we have maintained in the smoker's interest an intensified larger scale diversified research program. A half-million dollar 30-ton machine, the world's most powerful source of high voltage electrons, designed solely for our use has tested tens of thousands of cigarettes. This program has already given to us direct and significant information of benefit to the smoking public.

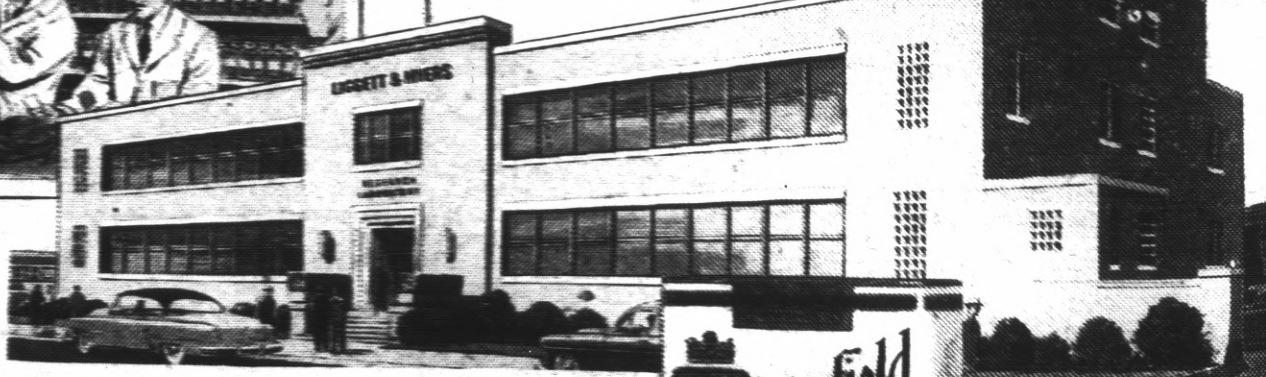

Our consultants include Arthur D. Little, Inc. of Cambridge, Massachusetts, "one of the largest and most reputable industrial research organizations in the country" (From Business Week Magazine) and eminent scientists from leading universities.

"Today the public can confidently choose from a variety of brands—by far the best cigarettes ever made by the tobacco industry.

## Awards Available For Study In Many Specialized Fields

There are \$10,900 available in scholarships, loans, and fellowships for the academic year of 1954-1955, Dean Wells announced last week.

Two thousand dollars of the total sum is set up as a scholarship for students interested in graduate study leading to a degree in Political Science, Government, or Economics. Application forms can be had in Dean Wells' office and must be submitted on or before February 23, 1954.

### DEADLINE NEARS

This grant is in return for one year's service in the International Relations branch of the United States Government and is under the sponsorship of the California Congress of Parents and Teachers. They have also given the college \$300 to be awarded to juniors, seniors, or graduates who plan to teach on the elementary school level. Candidates should either apply to Miss Cecilia Anderson or Mrs. Edith Merritt on or before March 12, 1954.

There are two scholarships of \$400 each available only to fifth year students working for a General Secondary Credential. Interested persons should contact Dr. Lauren Brink on or before March 12, 1954.

Five Special Education Fellowships of \$1,000 each for the additional training of teachers of handicapped children have also been presented to the college by the California Congress of Parents and Teachers. Applications for the fellowships should be made through Dean Cain's office.

### GIMBEL FUND AWARDS

Two loans of \$1,000 each are available to male applicants from the Jake Gimbel Scholarship Fund. Applicants for the loans should be working for the Master of Arts Degree during the academic year 1954-1955 and apply through Dean Wells' office on or before March 19, 1954.

The Arthur L. Todt Memorial Scholarship Fund sponsors two \$25 grants to upper division male students majoring in Economics, History, or Government. Applications for these grants are to be made upon recommendation.

The Arthur L. Todt Memorial Scholarship Fund sponsors two \$25

## Talent Tryouts

Camp Show tryouts will be held in the Women's Gym, 12 to 2 p.m., on both February 23 and 26. They are open to all students and everyone with talent is urged to attend by Director Daniel E. Caldwell.

"The opportunity and experience gained by working in Camp Shows has been invaluable to many former students who are now in show business," said Co-Director Barbara Ebner who is also with the Straw Hat Review which is currently enjoying a huge success on the road. Another student who made good through SF State's Camp Shows is Jean Turlin, now being featured at the Italian Village.

## Christian Science

The Christian Science Organization plans to hold a testimonial meeting weekly on Tuesday evenings throughout the semester. Meetings will be held at 7:45 p.m., corner of Dorian Way and San Rafael, San Francisco.

grants to upper division women students majoring in Home Economics. It also makes available six \$25 grants to upper division male students majoring in Economics, History, or Government. Applications for these grants are to be made upon recommendation of Miss Luehning or Dr. Castleberry through Dean Wells' office.

There are certain loan funds available to students in the field of Education. Further information about these and all other funds can be obtained in Dean Wells' office.

## College Opens Poetry Center

With the opening of the Music and Drama Building, San Francisco State College is about to launch at State a project to establish a center for poetry for the Bay Area.

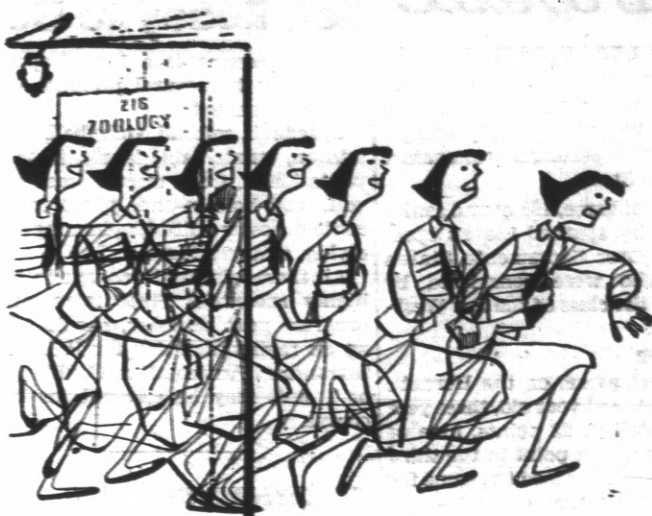

According to Mrs. Witt-Diamant, a variety of activities connected with poetry will develop in this program to interest both students and the community generally. Among them will be:

1. Workshops for writing poetry.
2. Discussion groups where students and the community can air their views and enrich their interests in poets and poetry.
3. People interested in the combination of dance and poetry, drama and poetry, and music and poetry.
4. Gatherings of students and others interested in listening to poetry recordings.
5. But over and above all this, the poetry center will try to bring to the Bay Area world renowned poets to read and discuss their work.

The first "concert" of poetry will be held in the Little Theatre, Music and Drama Building, on February 24, at 8 p.m. On this occasion, the American poet, Theodore Roethke, will read from his recently published work.

Roethke is known and admired by young people all over the world for the vigor and directness of his poetry. His appearance on our campus will demonstrate the sort of program the poetry center hopes to foster.

## Sportrait

By LEROY PACINI

Long Al Desin, State's speedy, nimble center, is the Sportrait's choice for this week's outstanding player on the basis of his performances against Sacramento State.

The six foot three, 165 pound senior from Berkeley sparked State's upset double win over Sacramento State's Hornets, who were considered by many to be the class of the Far Western League.

### DESIN HOT

In the first game, on the Hornet's home court, the 21 year old, three year regular poured in 23 points, nine of them in a row at a point in the third period which all but iced the game for the Gators. They finally won 50-45.

In the second game, on the home court, Desin again shined with 11 points to help give the Staters a thrilling 42-41 victory.

### VERSATILE

Desin, the team's leading scorer, should be even more appreciated when it is considered that he is a natural forward and not a center. As a sophomore he was a forward.

Switched to center last year because of a manpower shortage he led the team in scoring with 273 points. Back at forward this year with the return of Bob Leibe, he was then shifted back to center when Leibe was declared ineligible in early season.

Al should continue to be the main cog in the Gator attack this year. He moves and jumps well, can hit when under heavy guard, and is good at all types of shooting, especially from the corners and on drives for the basket.

## Gators Upset Sacramento

Upsetting the predictions of local casaba experts, State's varsity hoopsters knocked off the league favorite, Sacramento State Hornets, in one-two fashion during their recent home-and-home series.

The first game, played in Sacramento on January 15, ended with a 56-45 victory for the San Franciscans.

### DESIN SPARKLES

Although State jumped off to an early lead, in that first game, the home team rallied to take a 25-23 halftime advantage. State roared from behind in the third period, and maintained a lead for the remainder of the contest.

Al Desin led the State scoring barrage as he dropped 23 points through the hoop. Robert Johnson followed Desin with 10 digits.

### GATORS REPEAT

Seeking revenge the following night, the Hornets buzzed to the home of the Golden Gators, and once again tasted defeat. This time the Staters eked by with a narrow 42-41 triumph.

With 9 seconds to go in the final quarter, the Purple and Gold tallied the winning point when Robert Johnson let go with a 25 foot field goal. The win gave the State an undisputed lead in the Far Western Conference with a record of four wins without a setback.

San Francisco's scoring was evenly divided as Desin and John Burton scored 11 points apiece and Glyden Mayfield was next in line with 10.

## Murals Program Set, Ready to Go

The following is a list of sports which the intramural program will offer next semester:

Speedball, softball, volleyball, badminton, tennis, table tennis, football pentathlon, track meet, horseshoes, golf, golf-hole-in-one, photography contest, poster contest, swimming and diving, and wrestling.

All those wishing to engage in the highly successful State intramural program next semester, should sign up on registration day for P.E. 55.1, Intramural Participation. Credit of ½ or 1 unit may be received for the course.

## ANOTHER PITCHER BITES THE DUST

Joel Heckman, star freshman pitcher who compiled a 6-2 record and threw a five-hitter last year against the mighty University of California, to give the Gators their first win over the Bears in State baseball history, will probably sign a professional contract before Coach Dick Boyle can use him in one game.

# Gators Vie With Cal Aggies

By DAVE KRUG

## Gator Wrestlers Lose to Indians

The Gators lost their first wrestling match of the season last January 15, when they dropped a 4-3 decision to Stanford. Following are the results:

Vern Richard (State), 123, pinned; Fred Jue (State), 130, pinned; forfeit in 137 pound class; Bill Dorfi (State), 147, lost on points to George Russell, Pacific Coast Intercollegiate champ; Claire Parsh (State), 167, lost dec.; Mason Brown (State), 177, won dec.; Ed Tomasello (State), heavyweight, won on pin.

Bill Schmidt, State's spectacular blind wrestler, was held to a draw.

### FROSH BOXING

State's freshman boxers will meet San Francisco City College's Rams on February 23, the same night the varsity will be clashing with Stanford at the Gator gym.

State's league leading Gators will engage the Cal Aggies in a double header this coming week end, playing host to the Aggies on Friday night in the new campus gym, and then journeying to Davis on Saturday night.

The Aggies, not too successful of late, are led by Don Lamour-eux, a junior guard from Whittier whose jumping ability and rebounding greatly aids the Aggie cause. Norm Hackett is a high scoring forward, while William Rahn, a junior center, is the tallest man on the varsity squad at 6 feet 6 inches.

The Gator basketball team, recently returned from Arcata, swept a two game series from the Humboldt State Lumberjacks on February 5 and 6.

Paced by Al Desin's 22 points in the opening game, the Gators won 67-56. State jumped off to an early lead and held it throughout the contest. Besides Desin, State's Henry Fort and Glyden Mayfield tanked 16 and 15 points respectively. The locals were outscored only in the fourth quarter.

Saturday night's game went in (Continued on page 5)

## BILL SCHMIDT STORY IN LIFE MAGAZINE

Bill Schmidt, State's outstanding 157 pound blind wrestler, will crack the "bigtime" on February 23 when a Life Magazine photographer will be present to shoot him in action.

Schmidt, only a sophomore, will also be featured soon in a five minute film called Sportsvision, which is distributed throughout the coast from San Diego to Alaska. The commentary will be done by Norrie West, former University of California and San Francisco Seal publicist.

Bill was an outstanding wrestler while at Oakland Tech High School, and among his many laurels, he placed third on the coast in the Olympic tryouts.

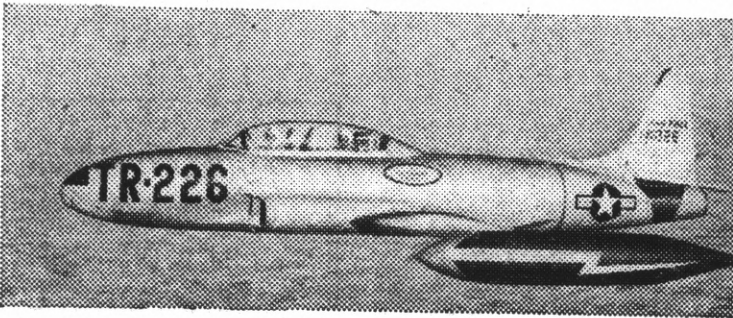

1. Pilot training begins at Lackland Air Force Base, where Aviation Cadets get 3 months of officer indoctrination.

2. It's a hard grind, but Cadets also find time to relax.

3. In primary training the Cadet flies his first planes, a Piper Cub, and this T-6. Later he will fly the more advanced T-28.

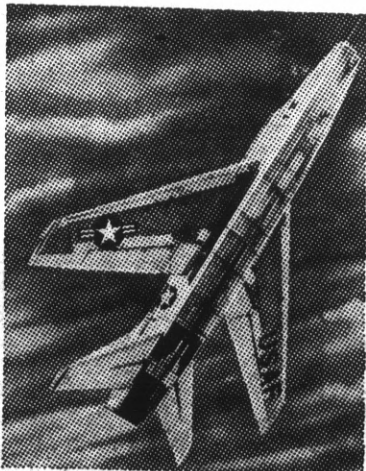

4. After flying conventional planes, he moves on to jets... going up with an instructor in this T-33 trainer.

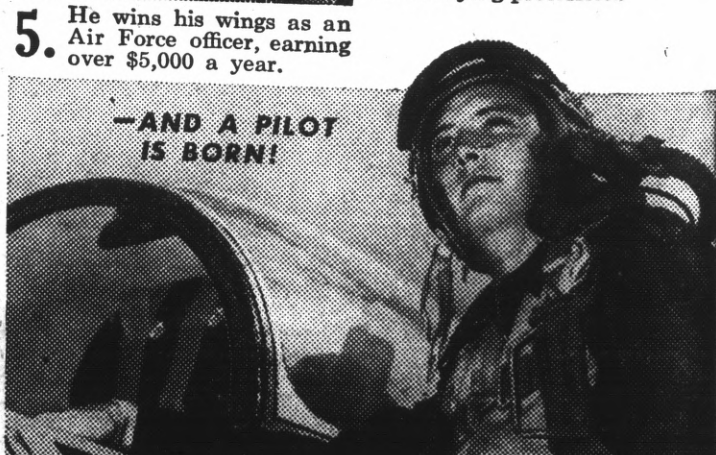

5. He wins his wings as an Air Force officer, earning over \$5,000 a year.

## How to qualify for Pilot Training as an Aviation Cadet!

To qualify, you must be at least a high school graduate. However, you will be of more value to the Air Force if you stay in college, graduate, and then volunteer for training. In addition, you must be between the ages of 19 and 26½, and in top physical condition. If you think you are eligible, here's what you do: Take your high school diploma or certificate of graduation together with a copy of your birth certificate down to your nearest Air Force base or recruiting station. Fill out the application they give you. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class.

6. Then winds up his training with the latest and fastest planes in the air.

7. He's tested those silver wings... And won the respect and admiration that go to every jet pilot in the United States Air Force! From now on he'll rule the skies in an Air Force jet.

## WHERE TO GET MORE DETAILS:

Contact your nearest Aviation Cadet Selection Team, Air Force ROTC Unit, or Air Force Recruiting Officer. Or write to: Aviation Cadet, Headquarters, U. S. Air Force, Washington 25, D. C.

# College Men! Fly with the Finest in the Air Force

**QUALIFIED APPLICANTS WIN WINGS  
AS AIR FORCE LIEUTENANTS,  
EARN OVER \$5,000 A YEAR!**

● For a fast, exciting and rewarding career, make your future in the sky as an Air Force pilot. As a college student, you are now able to join that small, select band of young men who race the wind in Air Force jets. You'll have the same opportunities to learn, advance and establish yourself in the growing new world of jet aviation.

### Fly as one of the best

The pilot training you get in the Air Force is the best in the world—the kind that makes jet aces. You'll learn to fly the fastest, latest planes in the air—and fly them safely and well. Those who look to the skies will look to you for leadership and confidence.

### Into a brilliant future

You'll graduate as an Air Force lieutenant, earning over \$5,000 a year. Your Air Force wings will serve as credentials for important positions both in military and commercial aviation. Air Force wings mark you as the very best in the flying profession.

## VERDUCCI IN MURAL AWARD

The intramurals award rally held on January 14, revealed Bruce Duncan as the top intramural novice gymnast, Delta Phi Gamma as the intramural All-Sports champions, and Frank Verducci as the outstanding intramural athlete.

Team and individual winners of the intramurals program received their awards, which consisted of trophies, medals and belt buckles.

Bruce Duncan, top gymnast of the program, won his honors mainly on the strength of his six foot six inch bar vault, breaking a State record.

Delta Phi Gamma issued buckles to the individuals who brought their frat home a winner. The fifteen man team receiving their buckles consisted of Gary (Y.A.) Allyne, Ron Rosenberg, Stan Fabiano, Jay Luther, Lou Schreck, Chuck Weiss, Art Morris, Will Vujovich, Bill Grant, Al Pacheco, Chuck Hernandez, Rudy Samson, Meredith Grubbe, Sal Lenci and Max Vella.

Frank Verducci, top athlete of the intramural season, received a medal and trophy, and also had his name engraved on the outstanding intramural athlete perpetual trophy.

Verducci, chosen by the individuals of the various intramural teams, was picked because of leadership, sportsmanship, ability and participation.

## CON KELEHER'S TRIP TO MOVIELAND SET

Con Keleher, former Sacred Heart High all round athlete now a sophomore at State, has announced that he will journey south to movieland this coming summer to work as a double for Van Johnson.

Keleher, a spitting image of the famed movie star, will first have to remove fifty pounds of excess weight, which he intends doing by running to school daily.

## FORT TOPS SCORING WITH 22 POINTS

(Continued from page 4)

much the same fashion. State jumped off to a 23-13 first quarter lead, and from there glided on to victory. Henry Fort, Purple-and-Gold frosh fireball, dropped 24 points through the net to cop scoring honors for the evening.

SEE PAGE 8

## Gator Gladiators Wallop Broncos in Opener Despite Loss by John Fawcett

Bob Troppman's well schooled boxing team scored a double header win over Santa Clara on January 14, at Santa Clara and looked good doing it before a packed house of 500.

With the varsity nabbing four out of nine bouts with two draws, and the freshman Gators shutting the baby Broncos out, 2-0, State's boxing future for the season looks bright.

### FAWCETT LOSES

The opening 125 pound bout saw State's Ashberry Butler looking very good in a TKO win over Ed Franz. The 132 pound bout saw the upset of the night, when battling Bill Wiswall, a real fighter from Bronco town, decisioned John Fawcett, considered as probably the brightest pugilist on the Gator team.

Since Fawcett had previously beaten Wiswall last year, this means the rubber match will materialize the next time the two teams meet here on February 26.

### COUTHER PLEASURES

Willie Couter of State, a freshman 139 pounder Navy vet who has been looking the greatest of anyone on the squad of late, showed lots of know-how and pleased the crowd with his TKO over Chuck Wiswall.

In the 145 pound division, State's Jim Guinn fought a lively bout with Bronco Denny Bourquin. The 147 pound division saw Santa Clara's Dave Vanetten winning a tough de-

cision over Tom Smith, a transfer from West Contra Costa who has been looking good.

Gator Dick Kelley, 156 pounder, won on forfeit, while State's 165 pound Vic Viviano, transfer from San Jose State, looked hard to beat in TKO'ing Curtis Cole.

In the 175 pound class, State's Dick Landry was going great guns in his bout with Tom Zajec until he injured his hand in the second round. The bout was called a technical draw.

State's hard working heavyweight, Glen Camper, dropped a decision to Santa Clara's Walt Conn.

In the only two freshman bouts, State's 165 pound Pete Limm TKO'd Art Crosetti, while another Gator, 178 pound Bob Waley, decisioned John Martin.

Coach Troppman attributed his team's success to their condition.

## LEAGUE STANDINGS

Team	Won	Lost
S.F. State	4	0
Chico State	1	0
Nevada	2	2
Sacramento State	2	2
Cal Aggies	0	1
Humboldt State	0	4

## Reports on Sports

### A TALE OF INTRIGUE

The story you are about to read is true. Only the names have been omitted to protect the embarrassed.

It seems that an ex-State athlete, now working the day watch out of a San Francisco playground, had a radio aerial removed from his newly acquired automobile. It just so happened, however, that his old clunk, which had broken down on him, was parked at one of this city's more desolate parts, and had attached to it a radio aerial doing nothing but collecting fog.

Our hero, not to be outdone, decided one dark night to hop over to where his jalopy was parked, remove the aerial, place it on his new car, and drive off. This he did, almost. But just as he was about to detach said aerial, a car drove up, a spotlight glared, and a Jack-Webbish-sounding voice said, "Place both hands on the roof of the car." Dum-da-dummm-dum.

Naturally, it was El Cop, thinking he had nabbed a teen-age car stripper. He had, but just a few years too late. It goes without saying that our man finally proved that he was owner of both cars, and walked away unscathed except for a red face. Well, that's about the size of it... we just wanted to give you the facts, that all, the facts.

### EASY WAY OUT...

If you should happen to be reading more intramurals than usual in next term's paper, don't be surprised. Harvey Roscelli, one of the great boosters of the intramurals program, will be a sports reporter for the Gater in the near future, covering of course, intramurals.

Roscelli figured that if he couldn't beat them, he'd join them.

### WHAT'S IN A NAME?

In our column of the last issue we inadvertently referred to the College Union as the Student Union. For this we apologize, but after all, what's in a name. Any way you look at it, it's still a cafeteria.

# IT'S ALL A MATTER OF TASTE

I've tried so many cigarettes,  
All brands from A to Z—  
But nothing beats that better taste.  
It's Lucky Strike for me!

Charlene Bernstein  
State University of Iowa

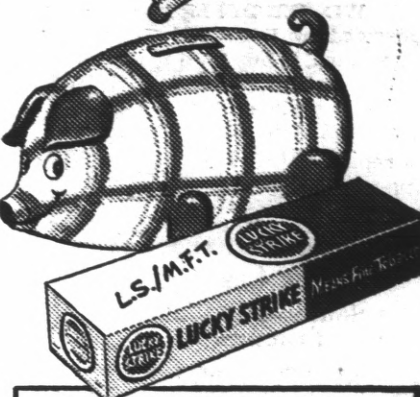

When you come right down to it, you smoke for one simple reason... enjoyment. And smoking enjoyment is all a matter of taste. Yes, taste is what counts in a cigarette. And Luckies taste better.

Two facts explain why Luckies taste better. First, L.S./M.F.T.—Lucky Strike means fine tobacco... light, mild, good-tasting tobacco. Second, Luckies are actually made better to taste better... always round, firm, fully packed to draw freely and smoke evenly.

So, for the enjoyment you get from better taste, and only from better taste, Be Happy—Go Lucky. Get a pack or a carton of better-tasting Luckies today.

If you're the kind of guy that hates  
To see his money partin',  
Here's a tip to save you dough:  
Buy Luckies by the carton!

Allison Danzig  
Cornell

### Where's your jingle?

It's easier than you think to make \$25, by writing a Lucky Strike jingle like those you see in this ad. Yes, we need jingles—and we pay \$25 for every one we use! So send as many as you like to: Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y.

In all the campus coffee shops  
Where students congregate,  
You'll hear this oft-repeated phrase:  
"Smoke Luckies—they taste great!"

Kenneth Miller  
Johns Hopkins  
University

## Library Forced to End Last Semester's Revised Hours

### EDITORIAL

During the beginning of the new semester, we endeavor to move quickly into our new classes. It is rather noteworthy that we have the opportunity to utilize new buildings, as well.

Swinging open its doors for the first time is the Drama Building, recently completed. This represents the long efforts of administrative personnel now being realized. We wish to thank them for creating the facilities that will add much to our college life.

Given these wonderful buildings, it now becomes our task to make full use of them. Recently, requests were made for extending the evening library hours. These requests were answered by maintaining a trial period during the latter half of the past semester.

Because too few students utilized the extra hours, even toward the end when term papers and final examinations were forthcoming, the library has been forced to reschedule its previous hours.

We cannot blame them, since the library funds are limited and can be used, it would appear, to much more fruitful advantage.

In the future, requests from students will be more carefully considered. The major question which arises is whether or not this indicates a trend harming us not only in this one instance, but also harming us in other areas as well.

We have new buildings. Whether or not we use them fully to provide ourselves with the best possible education remains a challenge that still must be met.

## Charlie Hernandez Named Cutest Campus Baby by Freshman Class

Charlie Hernandez was voted the cutest baby at San Francisco State in a recent baby picture contest sponsored by the Freshman class.

The winner was announced at half-time of the S. F. State-Sacramento State basketball game, Friday, January 16.

### EXCITED "BABY"

Dressed in a diaper and a bib that inscribed, "The cutest baby at San Francisco State," Charlie described himself at "excited and happy" when he was awarded a golden-panda bear and a large sucker.

Special prizes also went to Dolores Garrison and Ruth Dean as runners-up in the baby contest.

### WINNER DEFERS

Sponsored by Delta Phi Gamma, Charlie stated, "I owe it all to the organization and my friends."

Charlie, a sophomore, is majoring in Industrial Arts. He is 21 and a graduate of Mission high school. Charlie has been in Delta Phi Gamma for a year and stated that his fratern-

nity is "to say the least, the greatest!"

The freshman class thanked the cafeteria manager for helping them in staging the voting. During the balloting many pictures were displayed of "EARLY" youth.

Later in the spring semester, the freshman are planning a full calendar of events.

## Paris Atmosphere Will Set Mood In First Season Hop

C'est si bon, c'est magnifique and a toujours l'amour, toujours too. Repeat a few more of these clever phrases, slap on a beret and get in the mood for the coming "Paris After Dark" dance sponsored by Sigma Delta Gamma.

### FIRST DANCE

The dance, first of the semester, will be held in the woman's gym, February 19, 9:00-12:00 p.m.

Only Eartha Kitt would make this dance any more Parisian. It will include an art exhibit by, quite naturally, the art department, special entertainment imported from "Paris," and a door prize for the best costume (arty attire is the vogue).

### A MOOD SETTER

To set the mood, the patio of the gym will be a copy of a sidewalk cafe, complete with refreshments (no crepe suzettes included).

### RIDICULOUS STORY FOR THE SEMESTER

An elderly woman student in Gym class runs breathlessly after a group of 20-year-old men in an attempt to catch them, as per the rules of Three Deep. Game reverses and she dashes off to avoid being caught BY them. This is Class?

## S. Science Adds New Courses

A new course, Geography 40, will be offered for the first time in the spring semester, MWF at 10:00. This course will be concerned with major problem areas in current world affairs, most of which directly concern the United States.

Examples are: Indo-China, Kenya, Union of South Africa, Israel and the Arab League, Egypt and the Suez Canal, India-Pakistan, Italy-Yugoslavia, East-West Germany, Middle Eastern Oil, Morocco, as well as general consideration of the status of imperialism—British, French, Belgian, Portuguese—in the present-day world.

The geographical background—land, resources, people, economic position which influences these problems will be presented.

The objective of this course will be to achieve better understanding of current world developments which are properly the concern of all informed Americans.

### St. Val. Dance Theme

A Valentine's Dance, consisting of folk, square and social dancing will be held at the First Unitarian Church, Franklin and Geary Streets, Saturday, February 13 at 8 P.M. The dance is being sponsored by Channing Club and is open to all. Admission will be 35 cents.

Channing Club meets every Thursday night at 8:00 at the First Unitarian Church. Future programs for the month of February will be a Civil Rights Debate, on February 18, which will be led by a representative from the Young Democrats and the Young Republicans.

On February 25, a panel from the Nurses Club will lead a discussion on the recent Kinsey report.

Economics 80 (Consumer Economics) is a new 3-unit elective course intended especially for first-year students. One purpose of the course is to increase the awareness of students of the ways and means by which they may buy intelligently and effectively.

The course should also be useful to those who intend to get a secondary credential with a concentration in the social sciences. In addition, Econ. 80 meets beginning with the spring semester, the state safety and fire prevention requirements for graduation.

"Is a liberal arts education preparation for motherhood? Frankly we don't know . . ."

THE BOY'S SHIRT is the shirt of the year! Man-tailored in cotton Oxford cloth, with a buttondown collar. Sizes 12-18. 4.50

## NEW WOMAN PROFESSOR IS AWARDED SUMMA CUM LAUDE BY ENTHRALLED CLASS

Lauded in a ceremony at her last regular class meeting, Mrs. Neva Aubin, just completing her first semester of teaching at State College, was graduated *Summa cum laude* by the

members of her class.

In Music 101, sec. V, on January 19, 1954, Mr. Don James, on behalf of the class, presented Mrs. Aubin her diploma, a remarkably executed and

venerable document, signed and sealed by all members of the class. The document was accompanied by a generous corsage of yellow roses.

To prevent a stampede of Education majors rioting at registration for a chance at her sections, a eulogy to her personal charm and remarkable

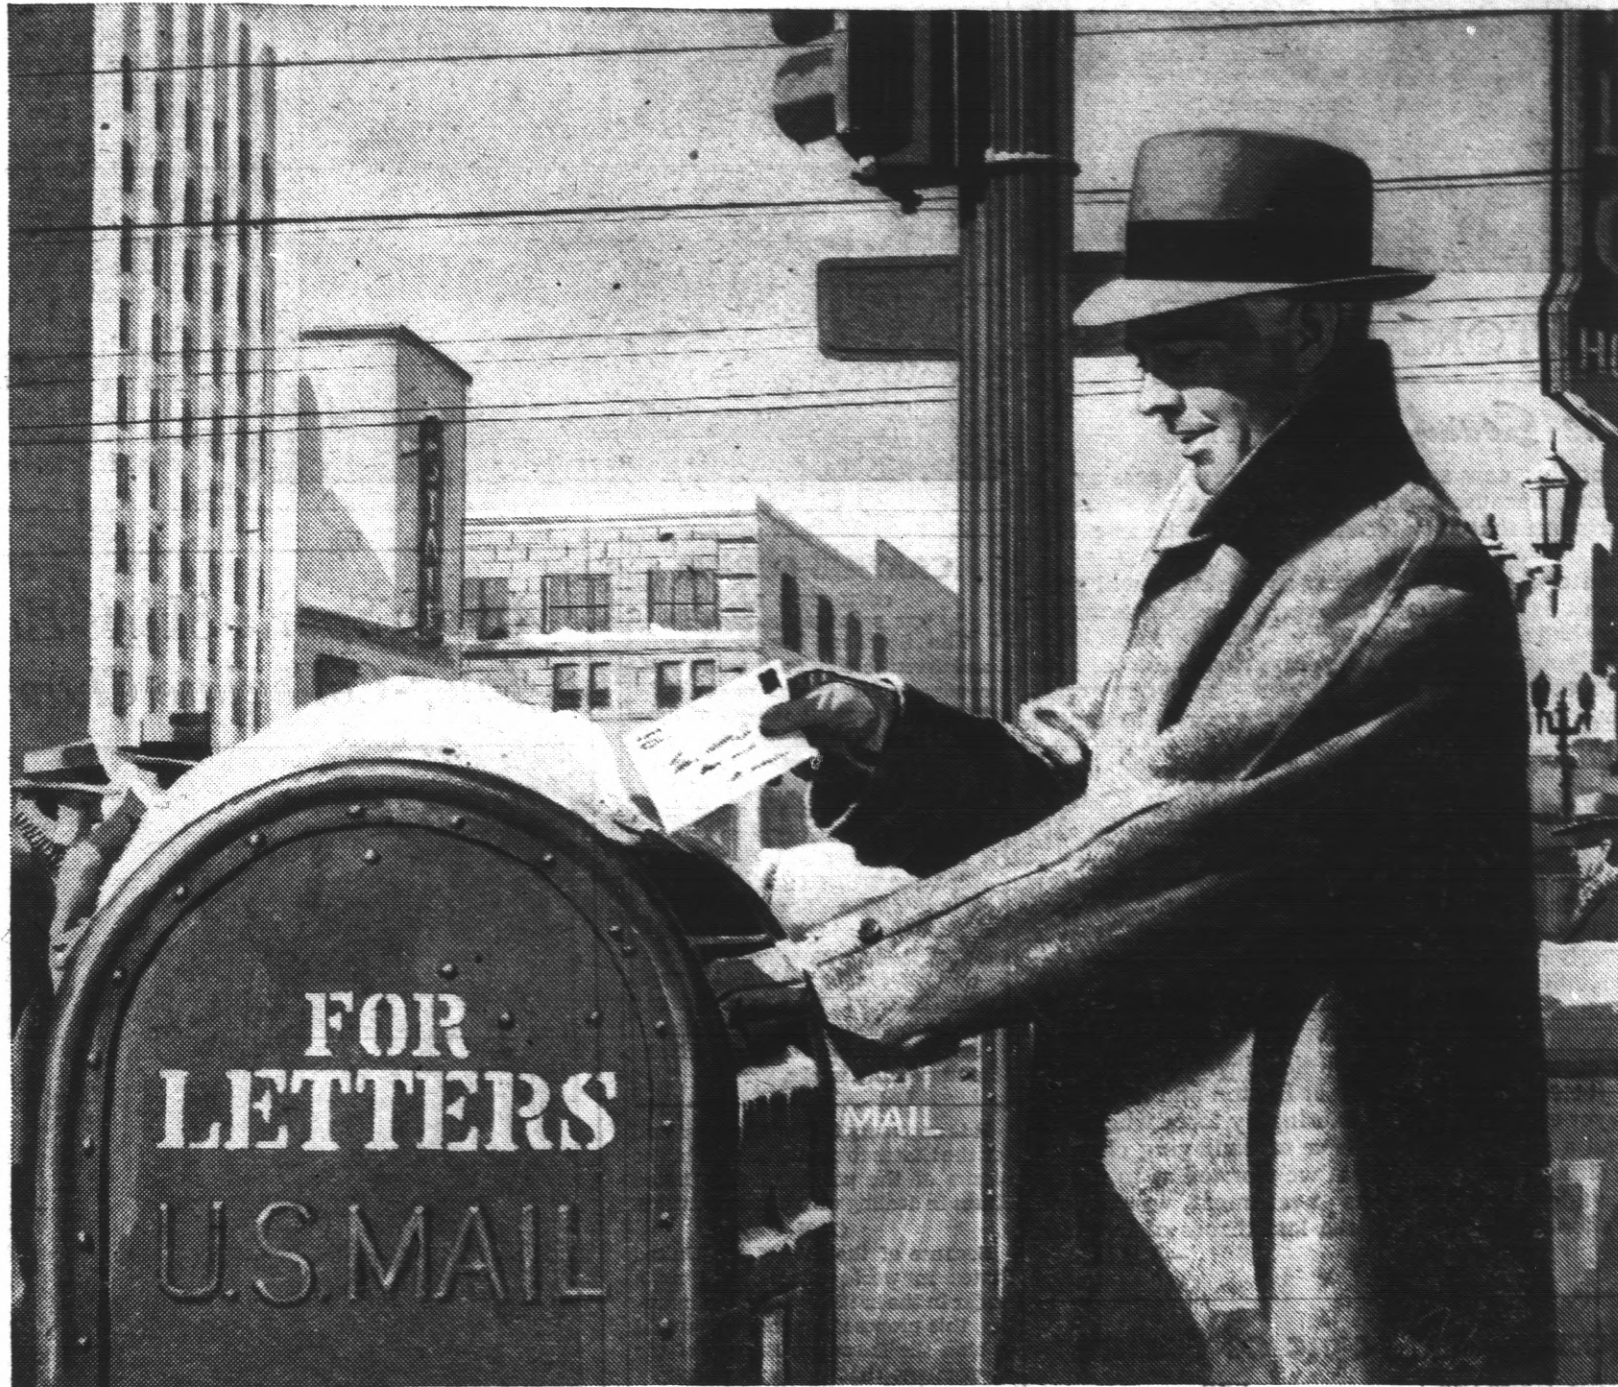

ability in her field will not be published.

When you see State students stopping children on the streets or in buses and giving them music lessons of exceptional calibre, you will know that they are students who entered Mrs. Aubin's class unable to sing a

note, indifferent to the music program in elementary schools and not giving a darn if they learned anything or not in the course.

Teaching music has become their burning desire now, thanks to the inspiration of Mrs. Aubin.

—By Adolph Schultz

## Picture of a man changing his motor oil.

It's hard to believe now, we know.

But several years back—before you could buy Royal Triton in most any city—some people who had discovered the amazing purple motor oil on a visit to California were in the habit of ordering it by mail after their return home.

When a product earns this kind of loyalty you think twice before you do anything to it, even to improve it.

Yet we have just announced Royal Triton motor oil in two new all-weather, all-climate grades: Royal Triton 5-20 and Royal Triton 10-30. They lubricate with the thoroughness of a lightweight winter oil, protect with the toughness of a heavyweight summer oil.

This is only one of hundreds of times since the end of World War II that we have improved a product

you, the customer, were more than happy to keep right on buying as it was.

Why don't we wait until you *demand* these new and better things? Because we can't afford to. We are competing for your business, and if we don't constantly better our products our competitors will better us.

Obviously, no matter which one of the oil companies comes in first in this race, the real winner is...you.

# Newly Constructed \$25,000 Bookstore Opened Jan. 4th

## Bookstore Sparkles

By NANCY MELOY  
Row after row of new textbooks are on the shelves of the campus bookstore waiting for the first day of the spring semester. Not only new but also used books are on sale with many books of general interest to the student reader.

The neat arrangement of the shelves and display counters is the result of the work and planning of

Charles Soto, a staff member. The actual construction of these cases was done mostly by the bookstore employees to hurry opening day after the move from the old campus location. The new building gives the store an additional 1000 square feet of space, which is being used to provide a larger stock of materials.

At a designated time, generally during the last few weeks of school, stu-

dents may turn in their textbooks and get a partial refund, according to the condition of the book and the current demand for the text. This is true of most of the regular, or hard-cover textbooks.

This store is set up for the convenience of the students, and as a student-owned-and-operated enterprise it is the product of student planning and needs.

Besides the many textbooks required for the 6,200 students here at State, Miss Wilde has introduced extra books on numerous topics for light reading and also advanced study.

The store is located in the modern, one-story building directly behind the Student Union and in front of the Creative Arts building. The store hours are from eight to four o'clock every school day, and they are open during exam week and summer session.

The store was moved from the old campus the first of this year so this will be the first time the enrolling students will be able to pick up their books and supplies at the new campus.

## EDITORIAL PAGE

### The Sounds of Silence

In the dawn of this new school year we are witnessing the twilight of freedom. Because this country is freedom's strongest bastion we can assume that such freedom will soon be as extinct as the mastodon.

You who are entering college this year as freshmen will probably goose-step out as graduates. However, you are fortunate in that you will have had a fleeting taste of freedom as we now know it and can relate your experience to your grandchildren, after first making sure there are no eavesdroppers. But your grandchildren will have you prosecuted for treason for your fantastic tale.

Does this sound unreal to you? It is happening today! On January 27, the Veterans of Foreign Wars urged its 1,200,000 members to inform the F.B.I. of any fellow citizens who they think might be Communists. Names have begun to pour in.

The old fashioned practice of trial by jury has become too slow and lengthy a process for modern day government. However, there are still a few of us left who believe that the 21 POW's, who chose the "other side," should have had the benefit of this ancient, legal privilege if only in absentia. Instead they were condemned to dishonor by one man, Secretary of Defense Charles E. Wilson.

Investigating committees have dwindled in number to one man. "Senator" Joe sat alone last week in Boston and had a witness and his lawyer ejected from the hearing by force when they attempted to read a statement in defense of damaging charges.

Last year the situation was such that we worried as to the future. This year, under an autonomous government, we condone tyrants by our silence and thus . . . the last throes of freedom.

—J.P.M.

### Bricker Bombshell Topic of Forum

Report 412, S. J. Res. 1, 83rd Congress, First Session, Senate Judiciary Committee, Amendment to the Constitution of the United States of America, submitted by Senator John Bricker of the State of Ohio. The three pertinent sections of the proposed amendment are:

1. "A provision of a treaty which conflicts with this Constitution shall not be of any force or effect."
2. "A treaty shall become effective as internal law in the United States only through legislation which would be valid in the absence of a treaty."
3. Congress shall have power to regulate all executive and other agreements with any foreign power

#### PRO

The Bricker Amendment would partially restore the traditional constitutional role of Congress in the conduct of foreign affairs and make certain that agreements and treaties do not breach the Constitution. Sixty-four Senators of the United States, leaders, are in favor of this proposal.

#### MANY DECISIONS NEEDED

The States Department and the President make thousands of decisions every year without the direct consent of the people, and in many cases important agreements are made by appointees of questionable character or loyalty to the United States. Many of these agreements or treaties are made in secret and on a mass production basis without proper investigation or study.

### CAMPUS FORUM

CONDUCTED BY THE SPEAKERS BUREAU

The Speakers Bureau, speech and forensic club on campus, will conduct a debate each in the GATER on a current subject of importance to college students.

There will be three parts to each debate, first, a summary of the question, second, a pro argument, and finally, a con argument.

This week the editors have asked the BUREAU to start the column with a discussion on the Bricker Amendment, but in following weeks suggestion from students or faculty will decide the subjects. Letters are also invited to comment on the issues, and short "Forum" letters will be published in succeeding weeks.

It is necessary for the Congress and for the States to regain control of the affairs of the people of the United States in dealing with other countries.

#### CON

Because of the role of the United States in world affairs, and as a leader in the battle against Communism, this proposed amendment would so bind the Executive Branch of the government that it would endanger this nation and the Constitutional form of government that we have.

The President is so strongly against this proposal that he will stomp the nation to defeat it. According to a Gallup poll last October, only 9% of the people were for the Bricker amendment.

#### COMPROMISE POSSIBLE

Although there is some place for compromise in sections 1 and 2 of this "adjustment" to the Constitution, it basically comes down to a decision between the right and need of the Executive to retain the treaty-making powers granted in the Constitution, or if the Legislative Branch of the government should take these powers.

The legislative branch is not capable of conducting foreign affairs.
